1.0 PURPOSE

An IT Governance process defines the decision framework, processes, and accountability required to ensure:

- IT is working on projects deemed critical by the business.
- IT has the ability to adjust their work to meet changing business priorities.
- IT is focused on cost efficiency and delivering planned benefit.

The purpose of IT Governance is to determine:

- What decisions must be made to ensure effective management and use of IT?
- Who should make the required decisions?
- How will the required decisions be made and monitored?

This procedure defines the IT Governance processes and forms/templates common to all IT Governance Committees.

2.0 SCOPE

The IT Governance process scope is limited to the set of activities that enables IT to establish its strategies, goals, purpose, and function.

IT Governance Committees are limited to:

- IT Governing Committee (ITGC)
- IT Steering Committee (ITSC)
- Architectural Review Board (ARB)
- Solutions

An IT Risk Representative will be a voting member on the ARB and Solutions Committees.

The IT Governance process does not include the Systems Review Boards (SRB) or temporary governing committees established for a business purpose (e.g. integration of acquired businesses). However, additional groups and individuals with responsibility beyond that of IT Governance serve a vital role in the IT Governance process including:

- Hospira C Level Management

- Hospira Finance
- IT Compliance Management

The relationships, roles, responsibilities and accountabilities of these groups to the IT Governance process are referenced in the Governance Committee Decisions and Governance Committee Interaction documents.

Document Number ITSOP-143	Title IT Governance		
Supersedes N/A	Issue Date 05/07/2007	Effective On or Before 05/11/2007	Page 4 of 7

Term	Definition
IT Governing Committee (ITGC)	Ensures IT provides a return on investment by determining which initiatives to pursue and in what order.
IT Steering Committee (ITSC)	Ensures IT operations are aligned with business demand and deliver IT-based value.
Solutions	Determines the impact that new technology or modifications to existing technology will have on certain applications.

5.0 RESPONSIBILITIES

Role	Responsibility
Hospira Employees, Non-Employees and Third Party Vendors	Complies with this procedure by having requests reviewed and approved by the appropriate Governing Committee(s).
Governance Participants	Ensures all requests are processed according to this procedure. Roles include: Arbitrator, Chair, Committee Member, Facilitator, Key Stakeholder, Presenter, Publisher, Scheduler, Scribe
CIO	Accountable for IT Governance

6.0 PROCEDURE

6.1 ESTABLISHING COMMITTEE MEMBERSHIP AND MEETINGS

- The Charter for each Governance Committee defines the committee's mission, objectives, scope, functions, and committee member roles and responsibilities.

6.2 PREPARING FOR GOVERNANCE COMMITTEE MEETINGS

- The Governance Process Flow identifies key activities and forms to be used when:
 - o determining if approval by a governing committee is required
 - o determining if a request is an Emergency request
 - o preparing for a governance meeting.
- The Governance forms, templates and instructions used in this process are:
 - o Governance Criteria Matrix
 - o Committee Calendar (Committee Specific)

Supersedes N/A	Issue Date 05/07/2007	Effective On or Before 05/11/2007	Page 5 of 7

- o Meeting Request Form (Committee Specific)
- o Meeting Agenda

6.3 CONDUCTING GOVERNANCE COMMITTEE MEETINGS

- The Governance Process Flow identifies key activities and forms to be used when:
 - o conducting a Governance Committee meeting
 - o documenting Governance Committee decisions obtained during a committee meeting.
- The Governance forms, templates and instructions used in this process are:
 - o Meeting Agenda
 - o Meeting Minutes
 - o Decision Summary

6.4 PROCESSING EMERGENCY GOVERNANCE REQUESTS

- The Governance Process Flow identifies key activities and forms to be used when:
 - o processing Emergency requests
 - o documenting Governance Committee decisions obtained following the Emergency process.
- The Governance forms, templates and instructions used in this process are:
 - o Meeting Request Form (Committee Specific)
 - o Work Instructions for submitting Emergency Request Decisions
 - o Meeting Agenda
 - o Decision Summary

6.5 PUBLISHING GOVERNANCE DOCUMENTS

- The Governance Process Flow identifies key activities and forms to be used when:
 - o determining publication timeframes.
- The Governance forms, templates and instructions used in this process are:

- o ITRC Service Level Expectation (for Governance)
- The Governance forms published in this process are:
 - o Committee Calendar (Committee Specific)
 - o Meeting Agenda
 - o Meeting Minutes
 - o Decision Summary

6.6 ARBITRATING GOVERNANCE DECISIONS

- The Governance Process Flow identifies key activities and forms to be used when:
 - o conducting governance arbitration
 - o documenting decisions obtained following the Arbitration process.
- The Governance forms, templates and instructions used in this process are:
 - o Meeting Agenda
 - o Decision Summary

6.7 ACTING ON GOVERNANCE DECISIONS

- The Governance Process provides committee decisions out of the Standard Committee Process, Emergency Process, and Arbitration Process. Standard decisions that can be rendered by a committee are:
 - o Approve the request
 - o Deny the request
 - o Rework the request and re-submit through the Governance process
 - o Escalate the request to another Governance Committee for decision
 - o Arbitrate the request through Arbitration Process
- Appropriate actions that may be taken with a governance decision include:
 - o If additional Governance Committee approvals are required (according to the Governance Criteria Matrix), follow the Governance Process for each required committee approval.

- o If the Governance Committee decision is to rework the request, rework the request and to re-submit it following the Governance Process.
- o If the Governance Committee decision is to escalate the request to another committee, follow the Governance Process for the committee that will make the decision.
- o If there is disagreement with a committee decision, work with management to escalate thru the appropriate ITSC representative (i.e. Director). The ITSC representative can help determine if request information should be updated and re-presented to the appropriate committees.
