Value-Driven Model for Healthcare

**Where Value is Measured
in the eyes of the patient**

Proposal

Define a new approach for measuring the value of healthcare (using a patient-driven model)

- To **provide a unified vision** for delivering sustainable value for patients, practitioners, and provider.
 - To **drive innovation & collaboration**.
 - To **guide continuous improvement** (quality and efficiency) across the continuum of care
-

The Vision

Value

- Patient-Driven

Quality

- Practitioner-Driven

Results

- Provider-Driven

“Health care organizations are increasingly concerned with looking beyond financial performance measures, while focusing on how to deliver higher quality care “

- Love, Dianne, Revere, Lee, and Black, Ken. (2008), *Journal of Health Care Finance*

Needs of the Patients

- To have affordable healthcare.
- To have attainable healthcare.
- To have more accessible healthcare.
- To have consistent levels of quality (results).
- To receive a total healthcare experience:
 - Ensure their functional outcomes met.
 - Ensure their emotional outcomes met.
 - Ensure their outcomes are met across the continuum of care (beyond the hospital, into clinics, and into the home).

“We continue to pay for lots of medical procedures that don't add to health value and in fact just add costs to the system..”

- Kathleen Sebelius

Needs of the Practitioners

- To improve diagnostic capabilities in a cost-effective manner.
- To improve clinical processes.
- To provide consistent levels of quality.
- To move beyond service, where they can deliver a positive experience.
- To be able to reliably measure value for their patients, for themselves as individual practitioners , and for their practices.

Needs of the Providers

- To get pharmaceutical and device manufacturers, insurers, and healthcare suppliers to become aligned, unified and collaboratively focused on a consistent set of outcomes.
- To increase collaboration NOT competition.
- To understand how to identify, measure and deliver value throughout the healthcare value network.
- To move towards a shared revenue model where everyone can still win, but not at the expense of others (esp. the patients & the public).

An Expanded Membership Model

Providing Patients with a way to measure the value they should be receiving for healthcare throughout the continuum

Guiding Practitioners to measure and optimize the value they deliver to Patients

Guiding the Providers to deliver value to Patients & Practitioners

Moving from Assumptions to Implementation

- Establish a program focused on mapping the Jobs & Outcomes across the healthcare domain.
- Build a portfolio of unmet needs (opportunities) for improving value delivery to patients and practitioners.
- Establish a prioritization model to direct resources in an efficient manner.
- Create an open innovation framework using the opportunities to generate ideas that can address the most important (prioritized) unmet needs.
- Establish a shared revenue model as part of a collaborative to address unmet needs.

Measuring Value for Healthcare

- Build a portfolio of jobs & outcomes:
 - For measuring value *
 - For driving innovation
 - For directing efforts to improve quality
 - For guiding initiatives to reduce cost

*** Value is created between the Patient & Practitioner**

Enabling Value for Healthcare

Value-Driven metrics are used to drive innovation & direct Quality & Efficiency

& create sustainable value for their
customers & stakeholders.***

Our Services

Enabling Innovation

- Institutionalize Customer Focus
- Portfolio Mgmt for Customer Needs, Ideas, & opportunities
- Drive efficiency into the ideation pipeline
- Aligning Value Platforms with Technology Platforms

Enabling Adaptation & Agility

- Model products & services for agility and adaptability
- Drive reuse of assets thru holistic portfolio Mgmt
- Leverage Quality to enable change
- Optimize Platforms Change Mgmt Platform for sustainable value

Enabling Operational Excellence

- Model-driven outcomes (beyond BPM)
- Infuse Quality & continuous learning into all processes
- Make technology transparent
- Drive efficiency & productivity thru an outcome focus

Enabling Business Models

- Profiling risk to create opportunity
- Collaboration as a core competency
- Leverage disruptive innovation
- Fail Fast Forward to achieve growth
- Embracing change
- Modeling for sustainable value

Enabling Knowledge

- Modeling data to enhance knowledge capture (explicit & tacit information)
- Integrating information and insights to enable knowledge consumption
- Designing platforms for sustainable learning

Our Expertise

Strategic

Driving Change

- Strategic Planning
- Business Model Innovation
- Enterprise Architecture

Driving Customer Value

- Customer Focus
- Market Assessment
- Value Platforms
- Investment Planning
- Product Roadmaps
- Portfolio Planning

Operational

Driving Innovation

- Driving Innovation
- Continuous Improvement

Driving Growth

- Prioritization
- Portfolio Planning
- Resource Planning
- Product Design - Testing
- Execution Management

Driving Quality

- Six Sigma
- Lean & Kaizen

Technical

Driving Sustainability

- Process Models
- Metric Models
- Integration Platforms
- Knowledge Management

Driving Agility & Scale

- Technology Platforms
- Technology Alignment
- Technology Optimization
- Service Level Management
- Agile Delivery
- Adaptable Design
