Risk Management	6
Notes.....	7

Preamble:

The Center for the Advancement of the Enterprise Architecture Profession (CAEAP) is a not for profit organization whose vision is to be the organization responsible for the Enterprise Architecture profession acting as primary advocate for the profession addressing the general public, the customer organizations and the organizations who propagate enterprise architectures through the engagement of enterprise architects.

The purpose of this charter addendum is to recognize CAEAP as a global federated Body acting as one, thinking globally and acting locally. Regardless of geographic location, CAEAP shall always maintain the perpetual succession of its mission, principles, values, objectives, core messages and a common logo.

Background:

CAEAP is a unifying body which brings together commercial industry, academics and government and value the inclusion and diversity and aspire to recognize global perspectives . Regionalisation of CAEAP is thus needed to help drive local autonomy by driving progress in identified areas and to implement a “follow the sun” model . Till date this growth and rapid acceptance has been spear headed by a strong central function. However, going forward CAEAP identifies the needs to adopt a much more federated approach to improve the wider acceptance of professional advocacy.

Current issues:

This federated approach highlights key gaps in the current operating model in terms of:

- Difficulties to adhere to central timezones to collaborate on work products
- Regardless of origin, many people today are being turned away or ignored because the central model cannot interview and place people in appropriate communities of interest
- The central model is limited to the number active work products that can be perused, developed and managed
- The ability to focus on innovation and drive local change to adapt the organization to regional needs

Benefits:

- Empower the local regions
- Promote an inclusive culture
- Engage a global voice to define the profession
- Incorporate diversity of thought and need
- Expedite decision making
- Better workload management for CAEAP initiatives

Industry Governance for the Profession

CAEAP is a governing body, in of itself, for the pofesion of Enterprise Architecture. The tenents of industry governance are assimilated and acted upon in good faith by all CAEAP affiliations:

- The profession will be controlled by a governing body which in professional matters directs the behavior of its members.
- The governing body must set adequate standards of education and certification as a condition of entry and thereafter ensure that students obtain an acceptable standard of professional competence as well as training, education and certification to continue throughout the member's professional life.
- The governing body must set the ethical rules and professional standards which are to be observed by the members. They should be higher than those established by the general law.
- The rules and standards enforced by the governing body should be designed for the benefit of the public and not for the private advantage of the members.
- The governing body must take disciplinary action, if necessary, expulsion from membership should the rules and standards it lays down not be observed or should a member be guilty of bad professional work.
- The governing body must satisfy itself that there is fair and open competition in the practice of the profession.
- The members of the profession, whether in practice or in employment, must be independent in thought and outlook. They must not allow themselves to be put under the control or dominance of any person or organization which could impair that independence.
- In its specific field of learning, the profession must give leadership to the public it serves.

Governance Approach to Regionalisation:

A federated approach for governance will be established such that there will be local autonomy to make specific decisions through driving consensus within communities while these regional communities will inturn report into the central CAEAP board for direction and progress updates.

This will be driven through interlocking governance processes/groups all underpinned by agreed ways of working/values/decision making.

The management framework (see diagram) will also ensure that communication channels are open and there is active collaboration between regional communities to exchange ideas and also there is direction from the centre.

- Perfomanc Measurement
- Strategic Alignment
- Value Delivery

**Performance
Measurement**

**Strategic
Alignment**

**Value
Delivery**

**Resource
Management**

**Risk
Management**

- Resource Management
- Financial Management
- Risk Management

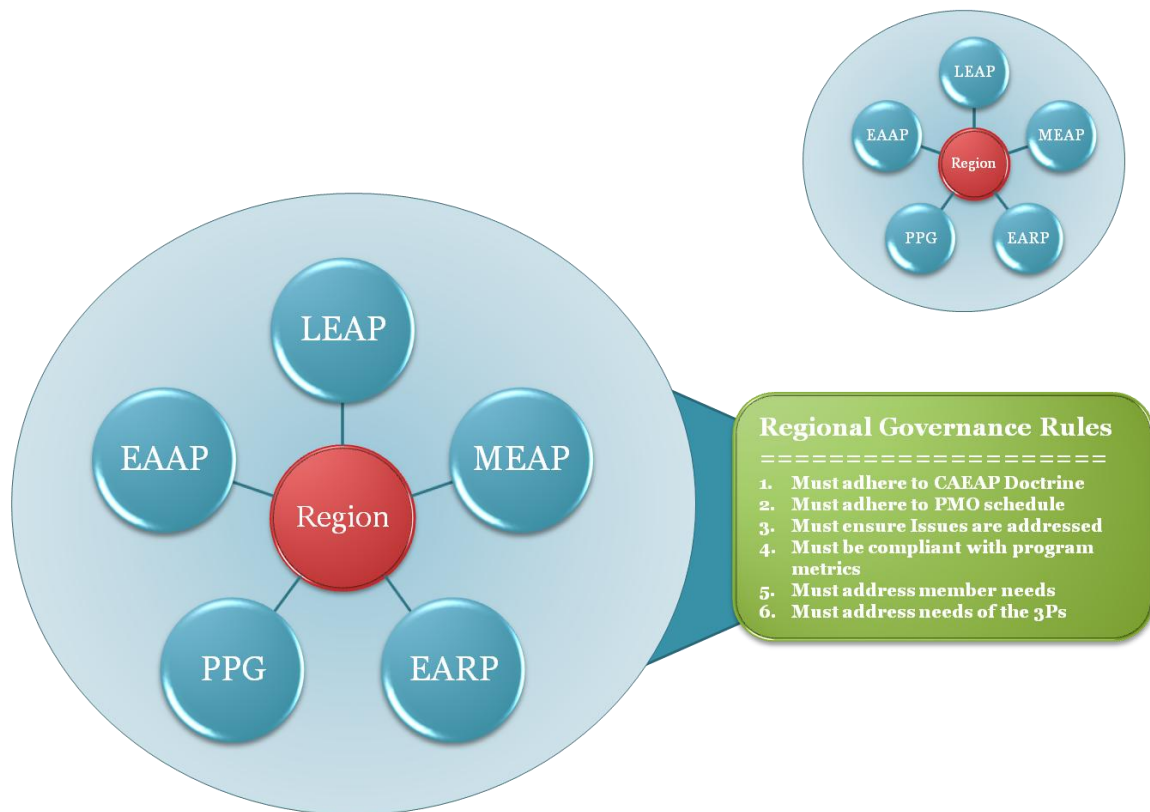

Figure 1: The above diagram represents a simple blueprint for the CAEAP regionalization model

Performance Measurement

Regular progress reviews are necessary to check that regionalization of CAEAP is really achieving all the aims it originally set to achieve and hence measurement criteria will be defined and there will be checkpoint reviews every quarter on the validity of a regional community / interest group and the value that is being specifically generated and fed back into the improvement of CAEAP as a whole.

Key Performance Measurements

- Compliance with CAEAP value and principles and ethics
- Timeliness of addressing issues for CAEAP
- Timeliness of addressing issues for local constituents
- Member satisfaction
- Public satisfaction

Strategic Alignment

- Strategy will continue to be set by the global leadership team for CAEAP.
- Input from regional CAEAP teams will be welcome and encouraged to ensure the needs of their constituents are met.
- Strategy includes the following:
 - The core programs for CAEAP
 - Guidelines and ground rules for governance
 - Measures for ensuring compliance & success of CAEAP
 - Priorities around major initiatives
 - Ownership of CAEAP IP
 - Approval for regional program rollouts
- Each regionalized CAEAP organization will designate a region president, vice president, treasurer and secretary
- Marketing & communications should be tailored to the needs of the local communities the region serves.
- participate in the regional owned portion of program development per the PMO guidance.
- Provide thought leadership in the evolution of the governance model and regional operating models.
- Capture and respond promptly to issues raised by CAEAP leadership and (of course) the 3Ps.

Value Delivery

- Assist in the creation of the CAEAP programs,
- Encourage participation by local resources,
- Contribute to the evolution of CAEAP,
- Contribute thought leadership to EA
- Promote the CAEAP brand and products
- Partner with regional organizations
- Adhere to the simple rules for autonomous engagement
- Communicate to other regional CAEAP teams via the agreed upon tools to ensure consistency & continuity.

A first cut of the governance artefacts that could be candidates for regionalization are :

- Governance for the Enterprise Architecture Profession (GEAP)
- Enterprise Architecture Advisory Board
- Enterprise Architecture Quality Board
- Enterprise Architecture Quality Statements (for each enterprise)
- Enterprise Architecture Annual Blueprint
- Enterprise Architecture 3-year Blueprint
- Enterprise Architecture Audit Reports (Qtrly, Annual)
- Reports covering enterprises in good standing (based on compliance & resolution of Audit deviations)

Resource Management

- The is where we add RACI, governance processes governance roles, responsibilities and structures.

Role	Responsibility
Regional Vice President	Resource acquisition, adherence to performance measures and engaging members and partners
Regional Administrator	Member & partner management, meeting coordination, communications
Regional Finance Director	Revenues, Dues, Expense management
Regional Program Manager	Coordination with CAEAP PMO program manager
Regional HR Manager	Acquisition and management of regional resources

- The decision process will follow a known process that ensures appropriate consultation and engagement from all stakeholders
- The governance structure should be able to accommodate new directions and decision areas, and new stakeholders

Financial Management

- Managing receivables from local programs
- Tracking cash and transferring to CAEAP's accounting books
- Expense management
- Reimbursement
- Sponsorship Management
- Vendor Agreements

Risk Management

- Intellectual Property Management (including Copyright, Trademarks)
- Policy enforcement
 - a) Business conduct at CAEAP
 - b) Ethics and Compliance Program
 - c) Whistleblower Policy and reporting violations
 - d) Volunteer safety and health
 - e) Conflicts of interest
 - f) Gifts, gratuities and other favors
 - g) Principles of business conduct
 - h) Commitment to volunteerism
 - i) Relationship with the public, suppliers and competitors
 - j) Stewardship of CAEAP assets
 - k) Responsibilities to the public
 - l) Confidential information
 - m) **CAEAP records management**
 - n. Diversity and inclusion

Appendix: Glossary of terms:

Word	Description
Board	Any group of members with responsibility for any major area of activity of the CAEAP whose establishment is approved by the Board of Directors
Chartered Member	Professional Members admitted in accordance with Bye Law 5
Chief Executive	Any person appointed to execute the office of chief executive officer of the CAEAP whether temporarily or otherwise and by whatever name called from time to time
Hippocratic Oath	Hippocratic Oath for members of the CAEAP as approved and prescribed by the Board of Directors
The Council	The advisory Council of the CAEAP established pursuant to the Charter
Distinguished Fellows	The Distinguished Fellows of the CAEAP
Fellows	The Fellows of the CAEAP
Honorary Fellows	The Honorary Fellows of the CAEAP
Laws of the CAEAP	The Charter, these Bye-laws, the Regulations and all rules made in accordance with the provisions of the Charter, these Bye-laws and the Regulations
Members of the CAEAP	All members of the CAEAP admitted in accordance with these Bye-laws;
Members	The Members of the CAEAP admitted in accordance with Bye-law 9
Members' Regulations	All the regulations of the CAEAP made by Special Resolution as provided by the Charter for the time being in force
Ordinary Members	The members of the CAEAP other than and excluding the Professional Members
The Profession	The profession of persons engaged in Enterprise Architecture as defined in the Charter
Professional Members	The Fellows, Distinguished Fellows, Honorary Fellows and Members
Regulations	All the Members' Regulations and such other regulations of the CAEAP as may be determined by the Board of Directors to be for the time being in force
Specialist Group	Any group of members of the CAEAP having common specialist interests in Enterprise Architecture and whose establishment is approved by the Board of Directors
The Board of Directors	The Board of Directors of the CAEAP established pursuant to the Charter
Board of Director Code of Conduct	Code of Conduct for members of the Board of Directors as approved by the CAEAP from time to time.

Notes

- Words importing the singular number shall include the plural number and vice versa.
- Words importing persons shall include corporations and firms and other unincorporated bodies or associations. Words importing the masculine gender only shall include the feminine gender and where the context admits the neuter gender.
- Any reference to the making of a Bye-law, Regulation or rule there under shall include a reference to the amending of a Bye-law, Regulation or rule already made.
- Headings are inserted for convenience only and shall not affect the meaning of these Bye-laws.
