NOW THAT YOU'VE SELECTED YOUR DREAM OUTDOOR ROOM, WHAT'S NEXT?

BUDGET TIPS

- **Research typical project costs in your area.** Ask neighbors if they have done similar projects. Get multiple quotes from several contractors. Go beyond labor costs and determine product costs online.

TIP: Look for alternative products that are similar in price to give yourself options.

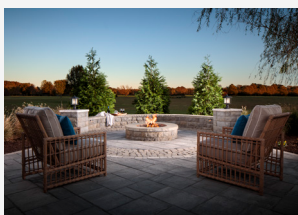

- **Determine a payment schedule** and if materials are included.

TIP: Plan the project in phases to meet your budget.

- **Consider financing options.**

TIP: When you choose a Belgard Authorized Contractor, you also have access to Belgard Preferred Payment® same-as-cash financing, which may allow you to take advantage of construction efficiencies and avoid having to build in phases.

- **Complex projects cost more.** Make sure you understand specific construction or engineering requirements. Linear design requires less cutting and building, resulting in lower costs compared to circular or winding patterns. Leveling your land can be costly, so consider building down into the slope.

SELECT YOUR CONTRACTOR

Selecting the right contractor is an important decision, which is why Belgard's network of Authorized Contractors are ICPI trained to deliver superior craftsmanship. The below list is a great starting point to determine if a contractor is the ideal fit for your project:

- | | |
|---|------------------------------|
| ► Qualifications & Experience | ► Payment Terms & Turnaround |
| ► Proof of Insurance & Business License | ► Sealants & Maintenance |
| ► Customer References | ► Workmanship Guarantee |
| ► Subcontracted Services | ► Access Needs |

Make your dream Room a reality! Find a contractor at [Belgard.com/Locator](https://belgard.com/locator).

TIMELINE

PLANNING THE PROJECT

PHASE 1: 4-6 weeks

- Review Belgard Rooms output to spark inspiration, sharing your ideas with potential contractors
- Set a budget
- Consider how you will use the space long-term, identifying phases of the project and any additional rooms you may want to add in the future. Adding additional features later, without planning, could delay the schedule and add to the total cost

SELECTING A CONTRACTOR

PHASE 2: 2-3 weeks

- Plan ahead, spring and summer are the busiest seasons for contractors
- Ask for referrals from neighbors, friends and family or visit [Belgard.com](https://belgard.com) to find an authorized contractor in your area
- Review contractor credentials and portfolio
- Check product availability and confirm it aligns with your timeline
- Select your contractor, finalize contracts and scheduling

INSTALLATION

PHASE 3: 2-12 weeks

- Installation timing will vary depending on the scope of the project
- Confirm with your contractor that the correct materials were ordered and arrived
- Communicate with your contractor throughout the project to ensure it's progressing as planned

AFTER INSTALLATION

PHASE 4: 6 weeks-12 months

- Conduct a final walk-through with your contractor to make sure you're satisfied with the work
- Determine a timeline to clean and seal the pavers
- Register your lifetime warranty
- Revisit the Belgard Rooms Planner to see how you can expand your Outdoor Room
