

Program Overview

Introduce a membership model for lifelong learning and access to online materials, online classes, online media, and where possible in-person classroom time. In-person classroom instruction is predicated on prioritization and availability (TBD).

In-person classroom instruction can be used towards credit-earning hours. If an alum wishes to pursue a full degree, they must enroll as a student. The university resources will be made available to alumni members as both consumers and (ideally) contributors (creators and curators of knowledge).

Service Model

Continuing Education (credit & non-credit)
Access to Online Resources (Education)
Access to Online Resources (Career Planning)
Access to Online Resources (Career Placement)
Focused Networking (non-competitive)
Networking Groups (local, virtual)
Participation in working groups (topics TBD)
Access to insights & skill building (pragmatic)
Career Transition Planning
Survival Skills Development
Marketing & Sales Skills Development
Capability & Competency Mapping
Fraternal Coalition of Support (placement)
Information Interviews
Mentoring & Collaboration with Peers
Participatory Model with Pay It Forward

Assumptions

Annual attrition is balanced by #New Alumni
Alumni classification is based solely on age
Alumni classifications spread is based on 20% even
Annualized projections are based on progressive marketing / value recognition
Total enrollment in membership program will taper off at 55%
Annual membership is \$1000 / year (upfront or \$100/mo based on incremental payment)
The key challenge for the university is to package a value-driven set of service offerings and access to university resources to create a highly valuable set of products & services that alumni will want to access.
Ramp up for the product / service launch will take one year (presumably 2020) with a progressive investment in marketing over the course of 2020 to engage the various alumni from each college.
The university will need to coalesce the resources and services across all colleges into a cohesive offering that serves the needs of the alumni so they can meet current and future challenges with the changing nature of work.
