Business Architecture Metamodel

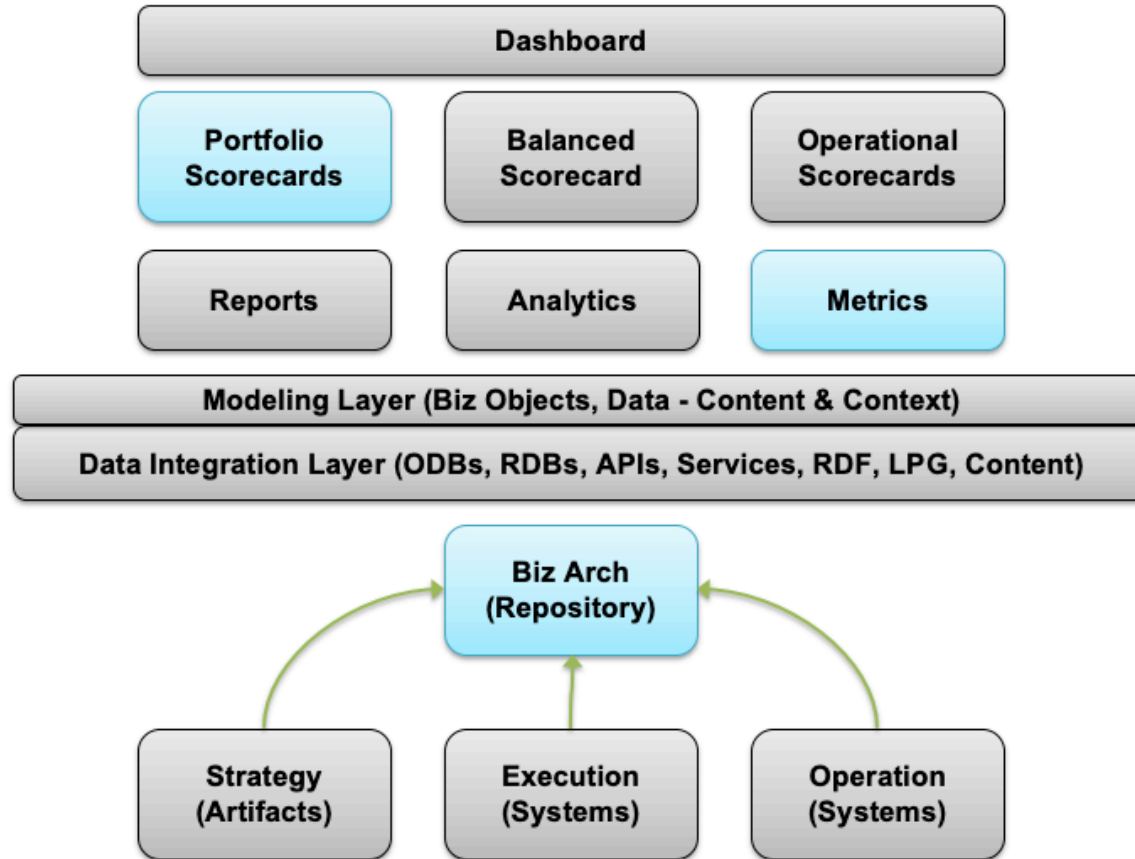

e Map

Metamodel

Initial Phase of Implementation:

- Focus on one Portfolio Scorecard (Operations & Product Support)
- Metrics will incorporate Biz Arch and traditional portfolio metrics
- Subset of Biz Arch will include (Capability Map, Requirements Map, and Initiative Map)
- Leverage desktop tools to build a scaffold to demonstrate POV

Key Data Sources include:

- Biz Arch Repository (New)
- ERP, CRM, FMS, CMDB, EAM, QMS, EHS, HRM, SRM, FM, R&D, PMM, PPM, LMS, EAM, EMM, MES, SFA

Dashboard Value Proposition:

- Supports Impact Analysis across the business model
- Enables scenario planning, which relies upon impact analysis
- Improves efficiency for Decisions
- Creates an end-2-end understanding for managing change
- Leverages Biz Arch and provides insights for leveraging AI, ML, RPA, and building a scalable platform for optimizing and aligning strategy, execution (of change), and operations.

360° Dashboard (Future State)

Impact Analysis	Planning Analysis	Risk Analysis
Scenario Planning	Efficiency	Value Delivery
Value Optimization	Quality	Agility
Financial Insights	Investment Analysis	Driving Innovation
