

Enterprise Architecture

A Fresh Perspective

Overview & Objectives

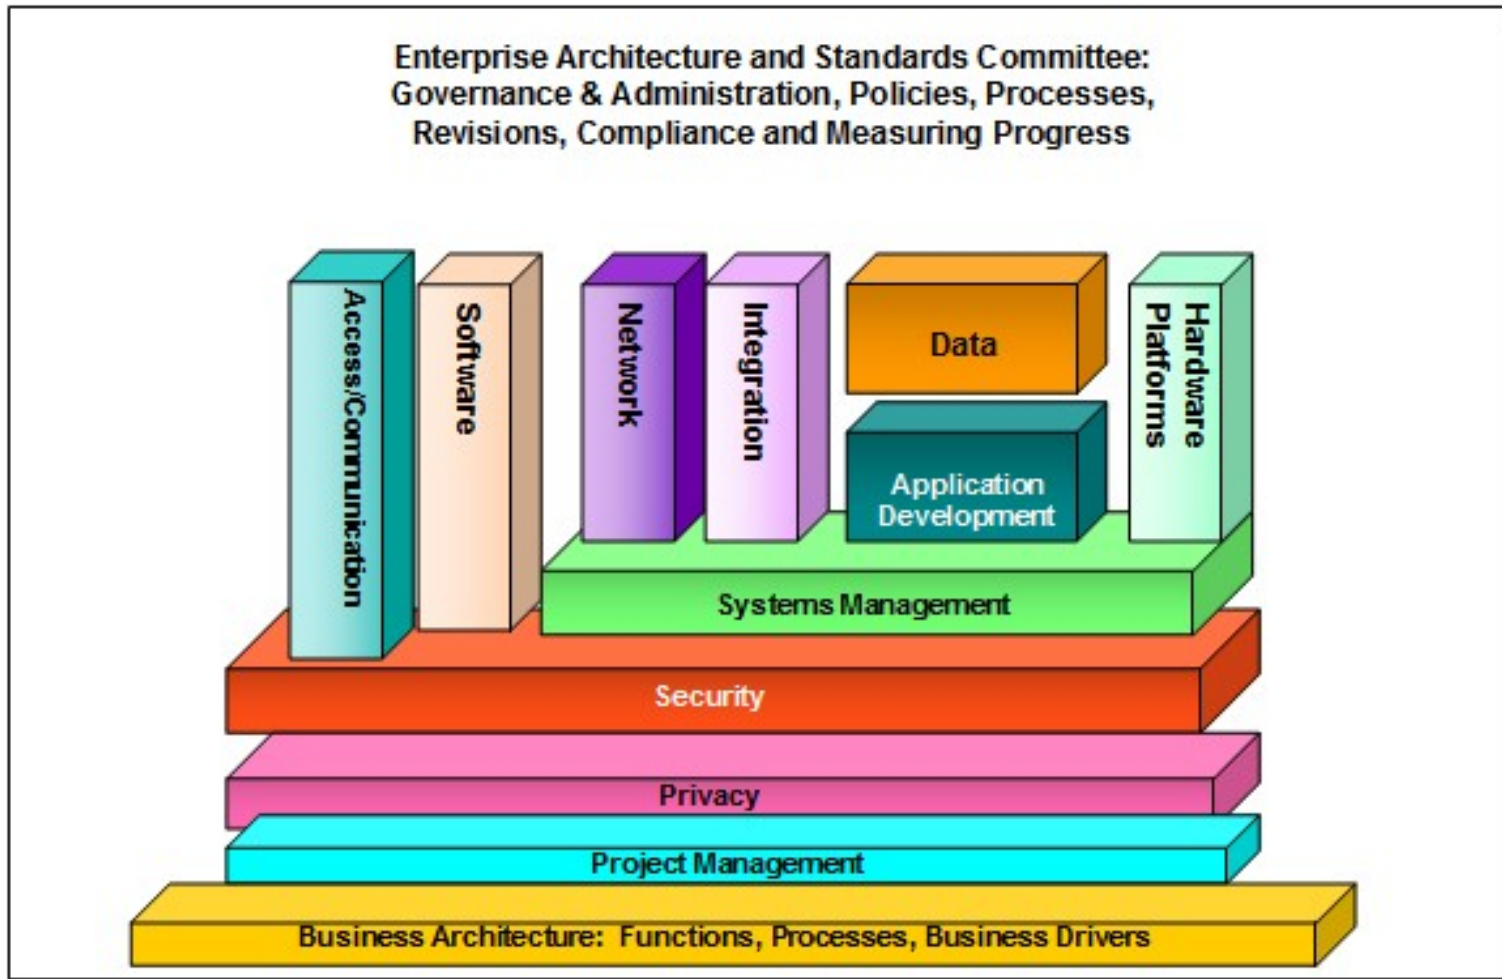

- ❑ Jeffrey will share a fresh perspective on what enterprise architecture is and is not. He will present a holistic approach for aligning strategy through execution that integrates key disciplines in EA and positions requirements engineering within a change management platform.

- ❑ **Learning Objectives include:**

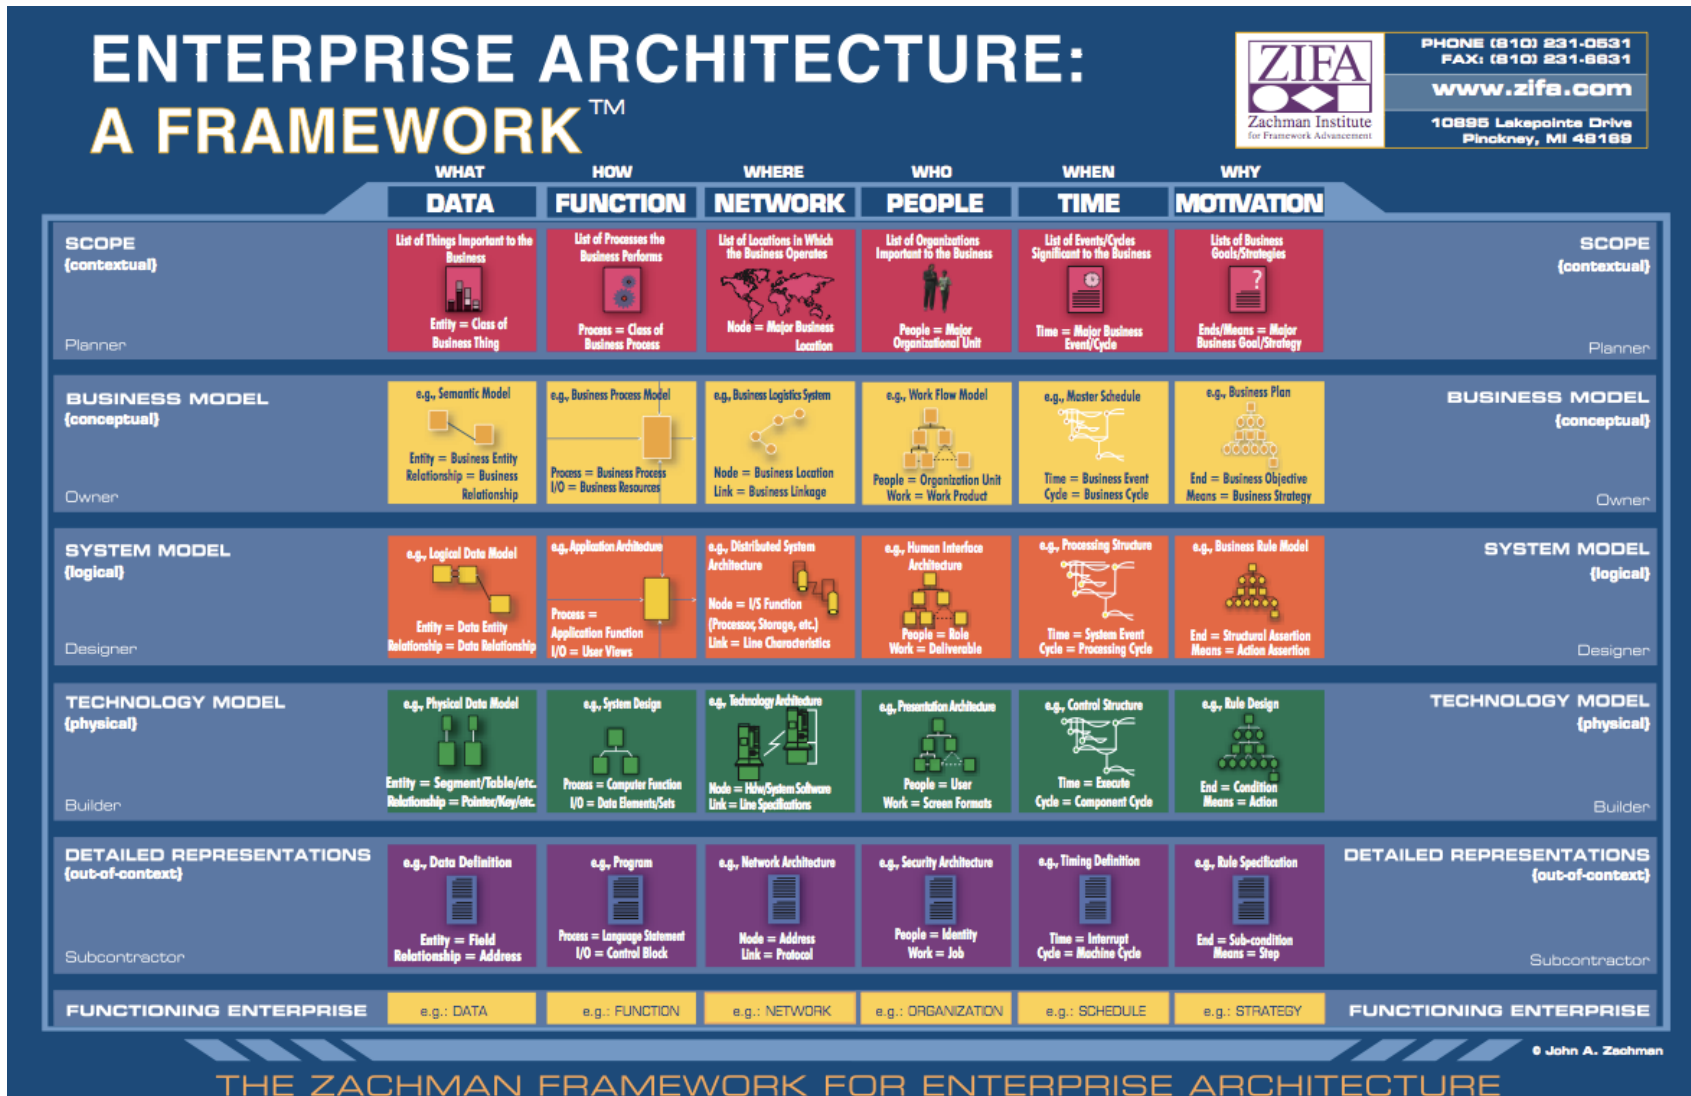

- Gain a high level understanding of EA
- Understand the importance of managing change holistically
- Aligning requirements engineering with customer needs
- Tracing assets through the portfolios of change

Conventional View of EA

A Reference Model for EA

But...there's more to EA than meets the eye

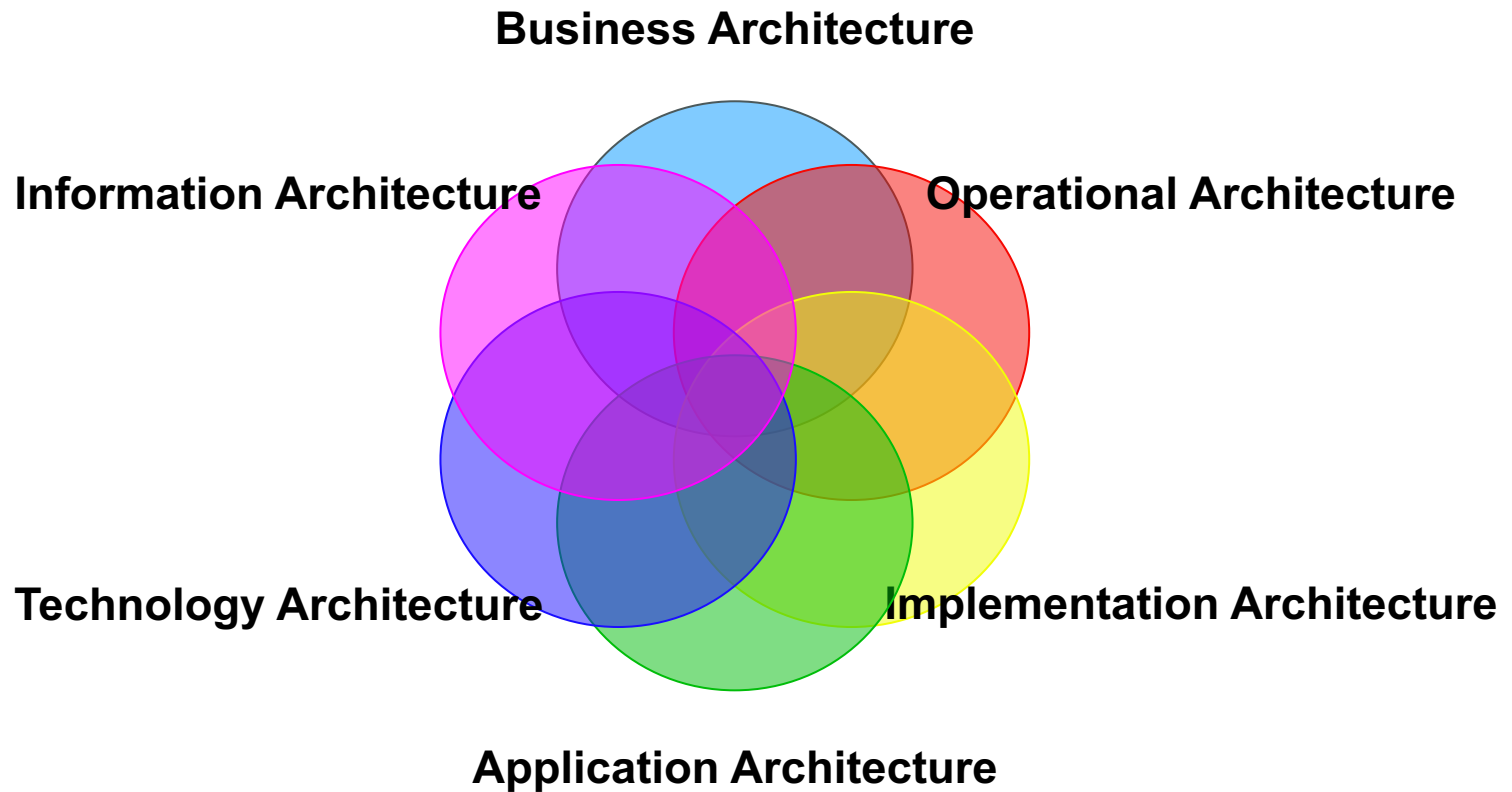

Stepping back to look at the whole picture

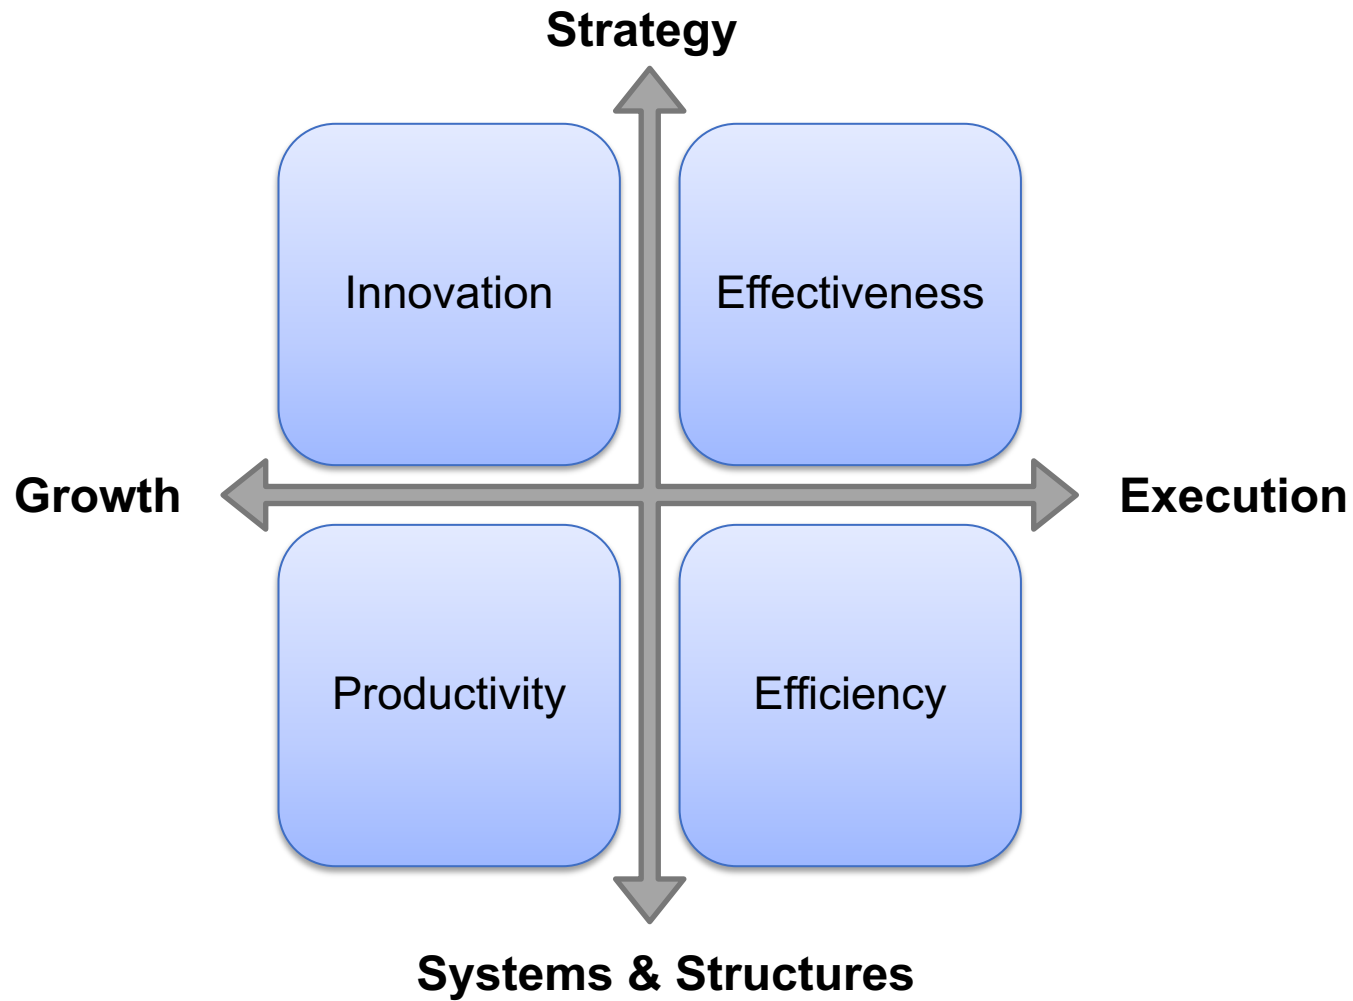

“The goal of Enterprise Architecture is to enable value creation through structures while reducing complexity.”

EA covers a number of disciplines

- ☐ **Principles guide decision making**
- ☐ **Standards enforce consistency**
- ☐ **Tools (“assets”) help us get our jobs done**

Key drivers for Business Architecture

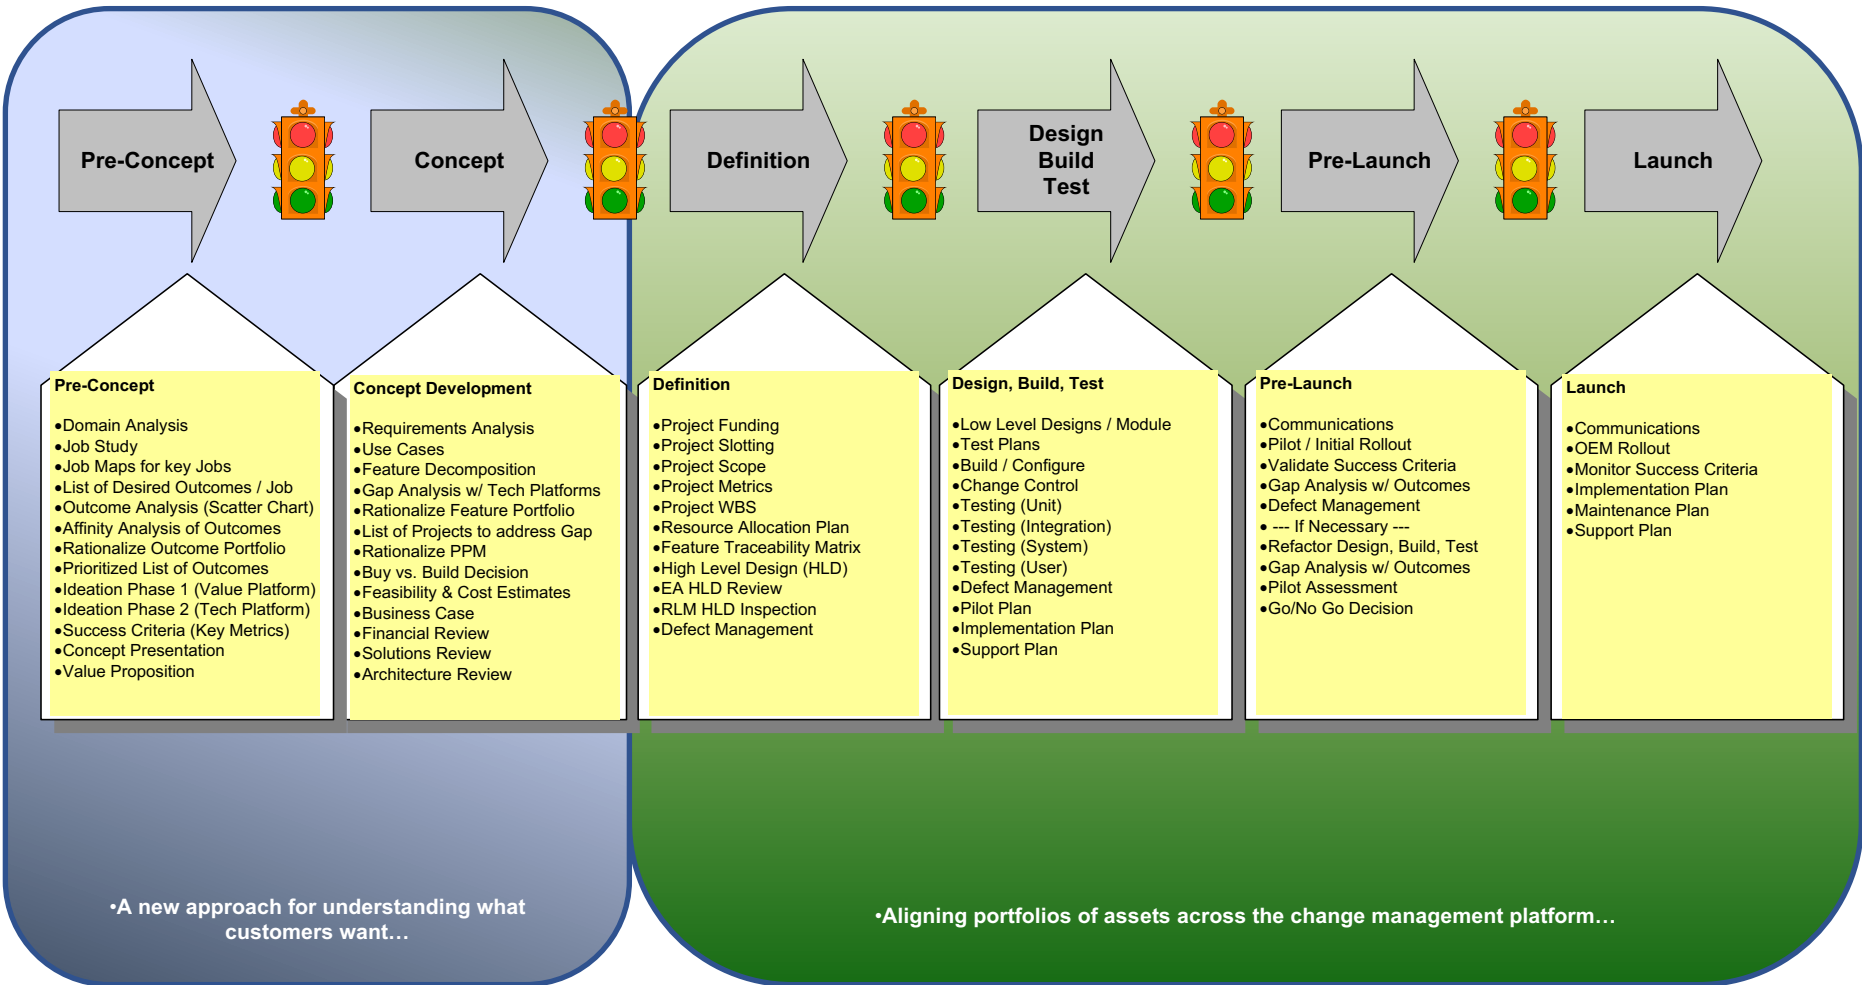

Time for a paradigm shift

From: *focusing on (product)*
Features

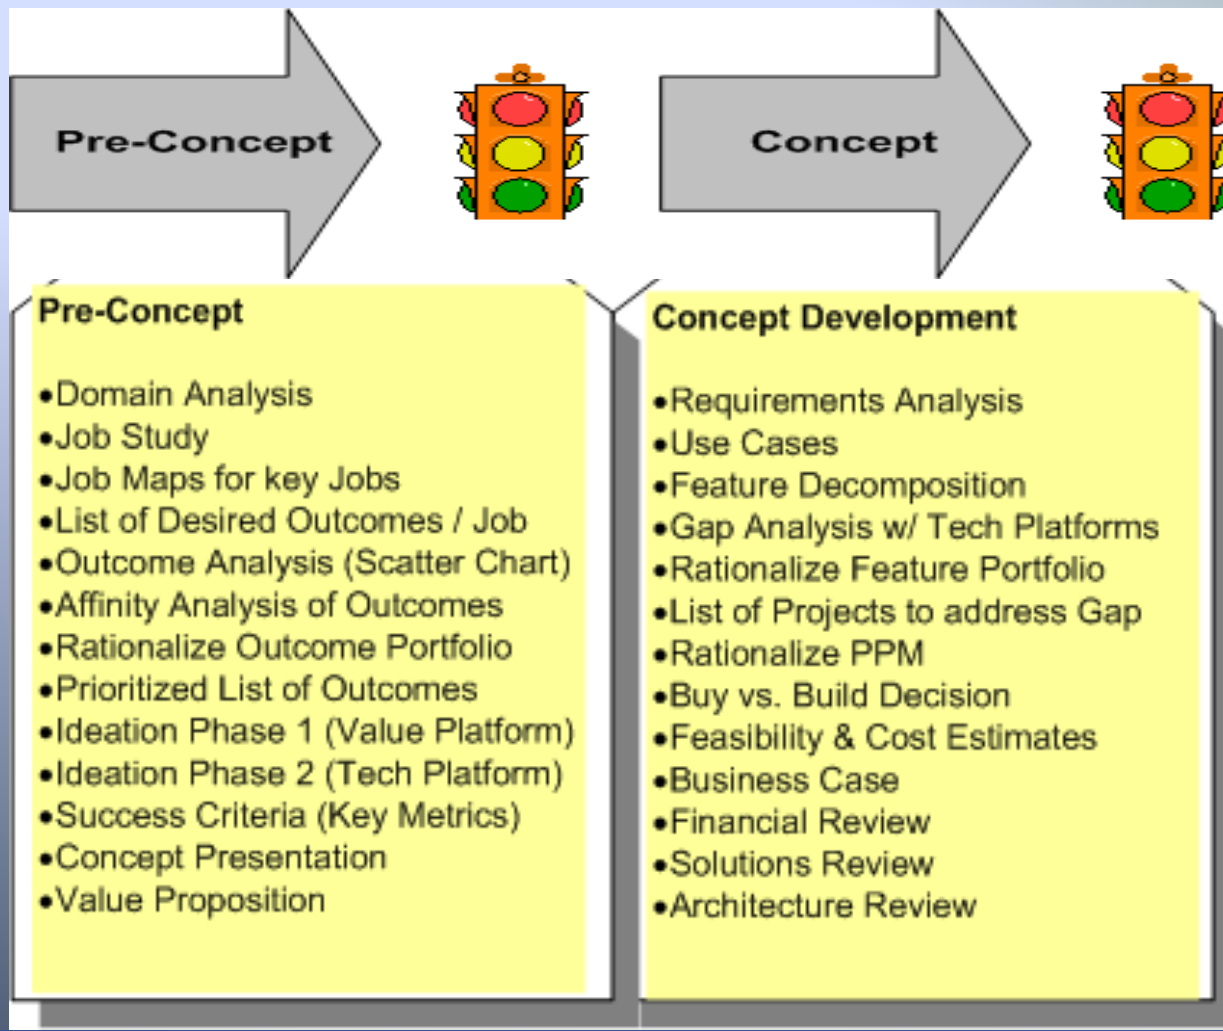

To: *focusing on (customer)*
Outcomes

Understanding What Customers Want...

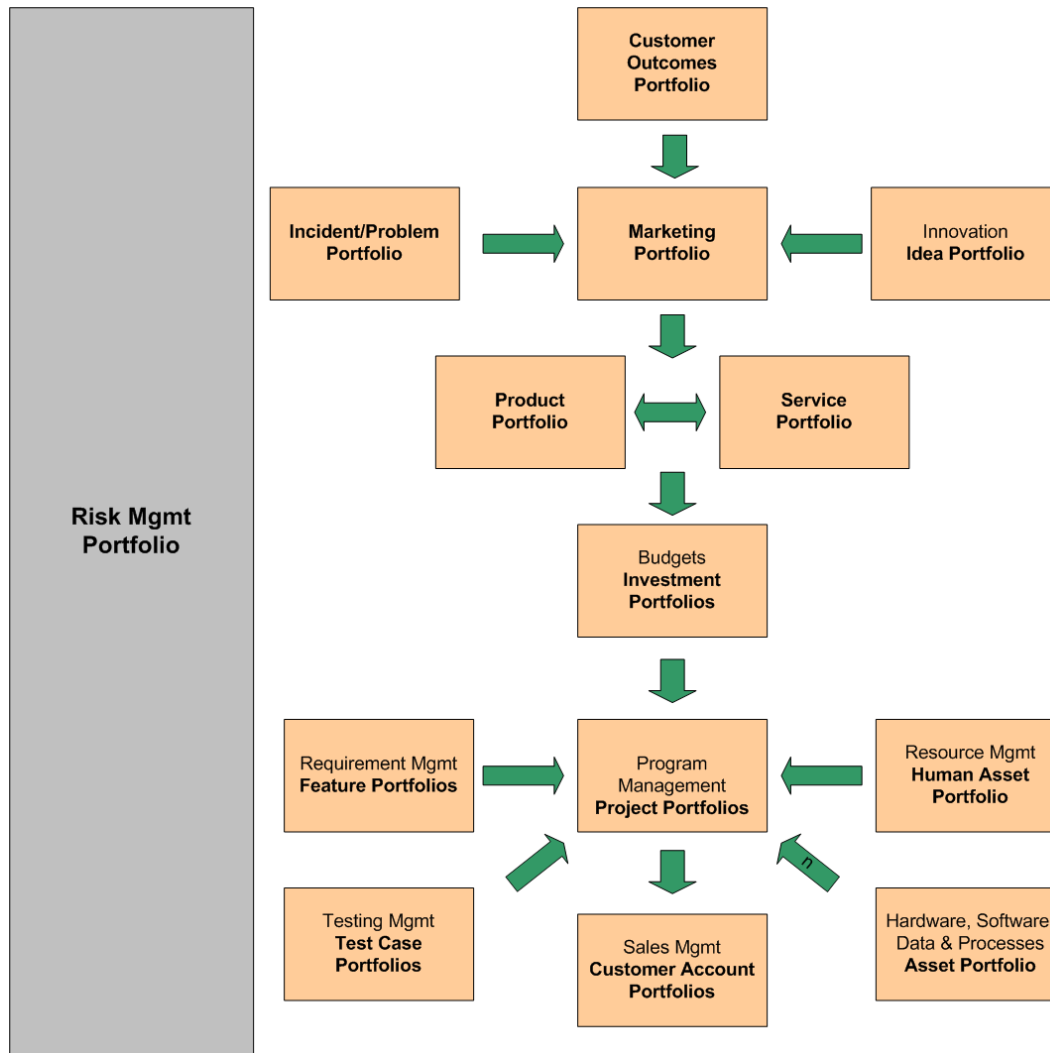

A closer look at the Front End...

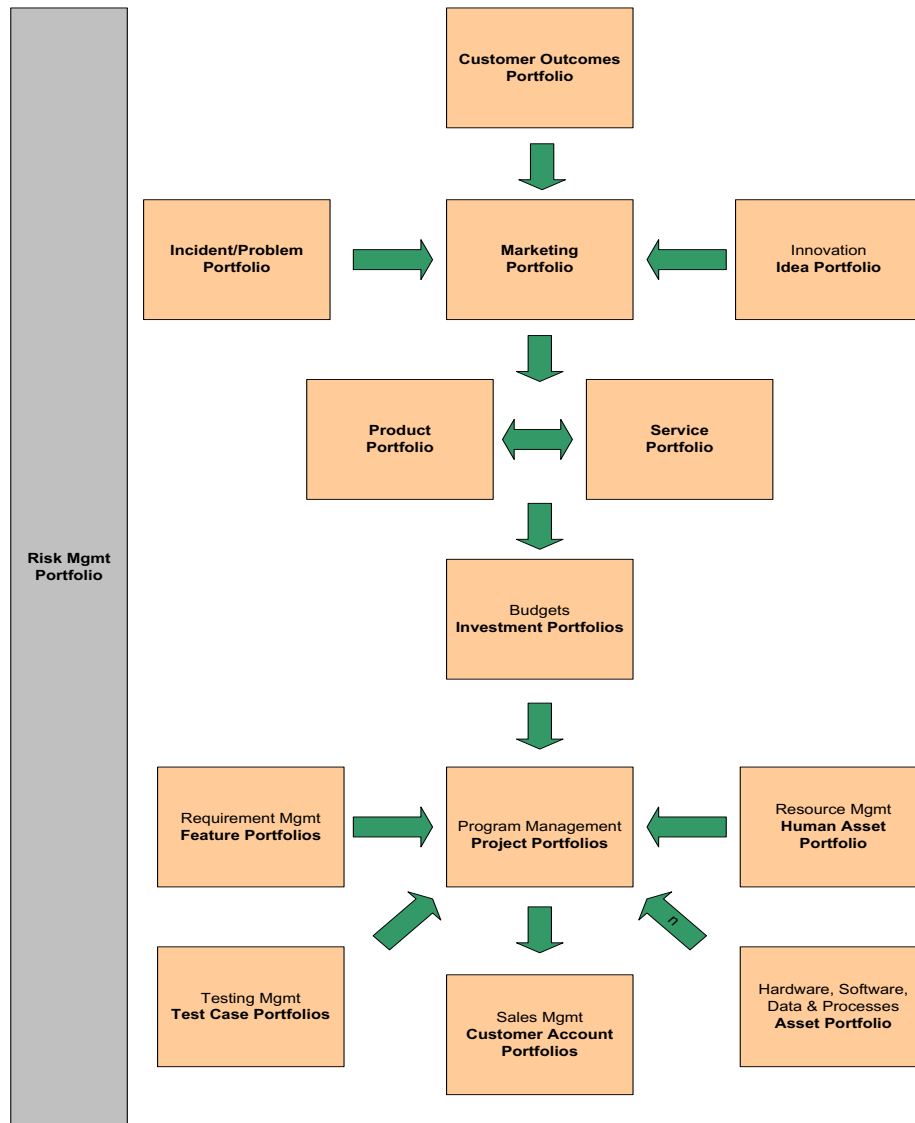

Products are about what the Customer Wants

Holistic view of Portfolio Management

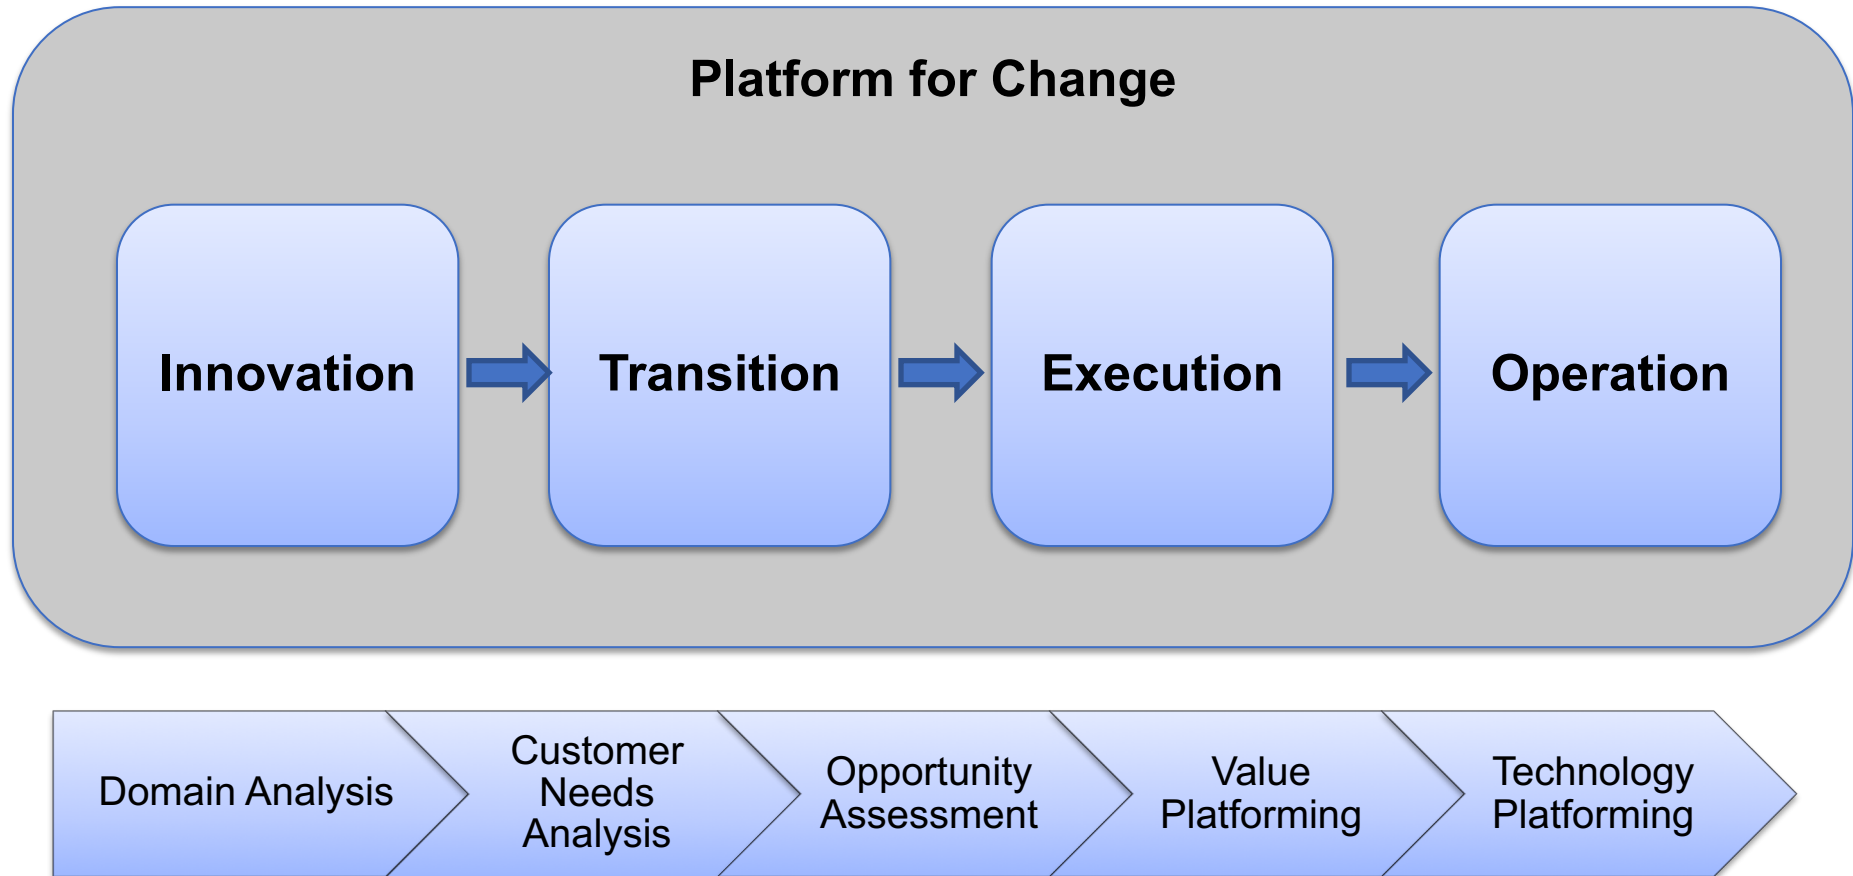

Holistic view of Portfolio Management

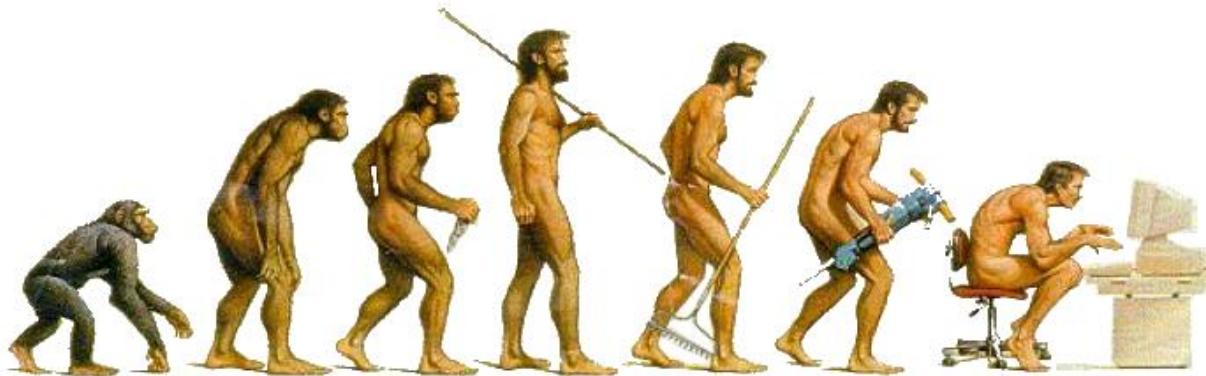

Some of the benefits...

- Ability to align functional silos to achieve a corporate strategy focused on meeting customer outcomes
- Ability to integrate strategy & execution
- Ability to measure the impact of change
- Ability to trace cause & effect from decision making
- Ability to optimize resource utilization
- Ability to align & prioritize execution of tactical initiatives amongst the functional silos
- Ability to match ideas against problem management & customer outcomes to accelerate innovation

Driving Innovation & Change

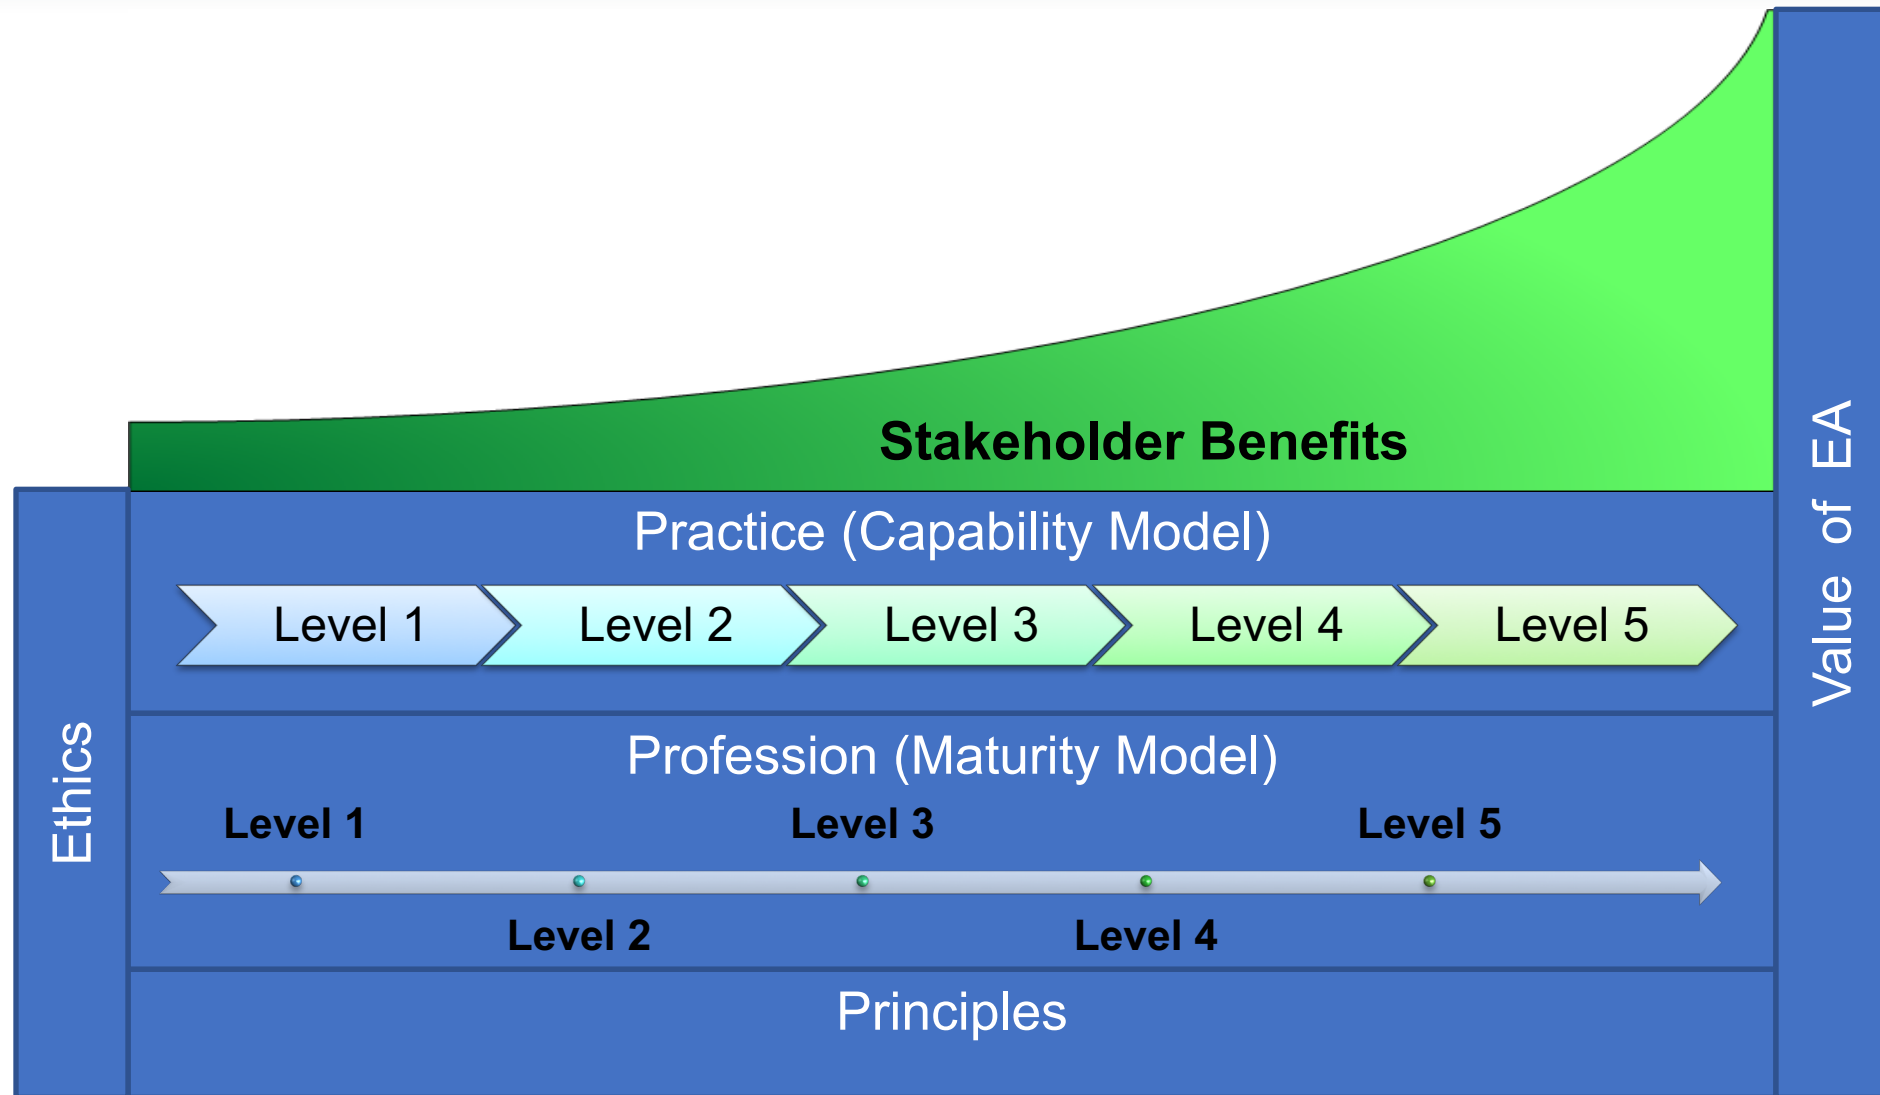

Evolution

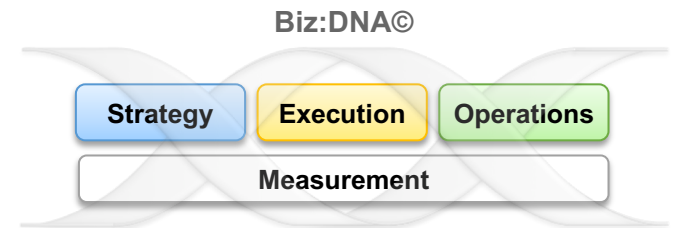

(OR is it?)

Future Direction for EA

Thank You

Measure what matters
Create and deliver the right value
Build and nurture a winning culture
Proactively manage change & complexity
